

MileStone 1 Progress Update for I.Helpr

Project Name: I.Helpr

Ji Won Choi	student # 111230163	jiwon.choi.2@stonybrook.edu
Sujeong Youn	student # 111290244	sujeong.youn@stonybrook.edu
Pyungkang Hong	student # 110054399	pyungkang.hong@stonybrook.edu

Course: CSE 416

Date: 10/27/2020

1. Group Progress Update

- Currently, our team has finished setting up the Django Framework and Database. At this point of writing this document, we feel our progress is on track. So far, we don't have any issues. However, if we do not finish implementing two use cases (Loading the list of posts when forSitter or for Parents page is opened, Posting questions on QnA page) by Tuesday, we might be behind on schedule. The reason is that we have midterm this week and next week. Therefore, it might not be able to fit on the schedule. If it happens, we will try to finish the postponed work in a day or two.

2. Update schedule

- We are going to keep tracking and manage our schedule through Trello.
